concerned;

If the supreme court places current  
asbestosis cases on a shelf other states will continue while M. cases remain on hold. This will  
result in a complete denial of due process and trial by jury.

Many workers in Mi. suffer from job related sickness but continue to pay taxes and vote. I  
think if this process for trial by jury is denied for the workers it will be an injustice for the ones that  
suffer from asbestosis!
